C-CAT provides Data and Voice Cable Infrastructure Installation moves, adds and changes for Indianapolis VA Medical Center

**Customer Info:
Indianapolis VA Medical
Center**

**Contract Amount:
(to date)
\$55,000**

**Period of Performance:
06/10/09 – 6/09/10**

C-CAT, Inc. currently provides labor and materials to the Indianapolis VA Medical Center for any moves, adds or changes to data and voice cable infrastructure as well as fiber requirements. C-CAT currently holds an IDIQ contract to perform these services in addition to other projects performed on a requested basis.

Challenges

- Coordination of personnel
- Coordination of other trades
- Material Management
- Tracking and Record Keeping of all Task Orders

Solutions

- C-CAT works closely with VAMC personnel in order to maintain schedule
- C-CAT has designed an order process system individualized for the VAMC orders and maintains work order tracking and record keeping of all work completed and scheduled
